

PRODUCT DATA SHEET

Product: **Sanbio® PURA**

DESCRIPTION

PURA is a concentrated solid encapsulated acidifying formulation and immune activator for conservation of poultry feed (breeders, broilers, layers, ducks, geese, turkey). PURA provides a significant and rapid inhibition of pathogenic bacteria in the feed and gastrointestinal tract. PURA activates the digestion and enhances the productive performance.

MAIN ADVANTAGES

The advantages of PURA are:

- Preservation of feed
- Health protection
- Modulation of gut microbiota
- Stimulation of digestion
- Enhancement of breeding performance.

COMPOSITION

Activated*) premixture of preservatives containing: Formic acid (E236), Sodium formate (E237), Silicon dioxide (E551a), Citric acid (E330).

*) processed by *SANBIO Biocatalytic Stimulation Technology*

CLASSIFICATION ACCORDING FEED LAW

PURA is a premixture of preservatives for poultry used in the feed.

MODE OF ACTION

PURA combines the core functions in one product:

- 1. INHIBITATION of pathogen bacteria**
- 2. MODULATION of healthy microbiota**
- 3. STIMULATION of digestion.**

The effectiveness of PURA is based on the synergistic combination of organic acids and active stimulation of cells in the small intestine (SANBIO Biocatalytical Stimulation Technology). The mechanism of **electrical stimulation of cells** makes the difference of PURA versus conventional products acting on chemical mechanisms only.

- 1 Inhibition of pathogenic bacteria
- 2 Maintain healthy gut microbiota
- 3 Secretion of enzymes and digestive juices

RAPID ACTION. The powerful composition of PURA ensures instant improvement of hygienic situation.

STRONG ANTI-MICROBIAL EFFECT. PURA contains selected beneficial organic acids which are highly bacteriostatic and bactericidal. The acidification of the complete gastrointestinal tract limits the proliferation of pathogenic bacteria and inhibiting the development of diseases (colibacillosis, coccidiosis, salmonellosis, gas gangrene).

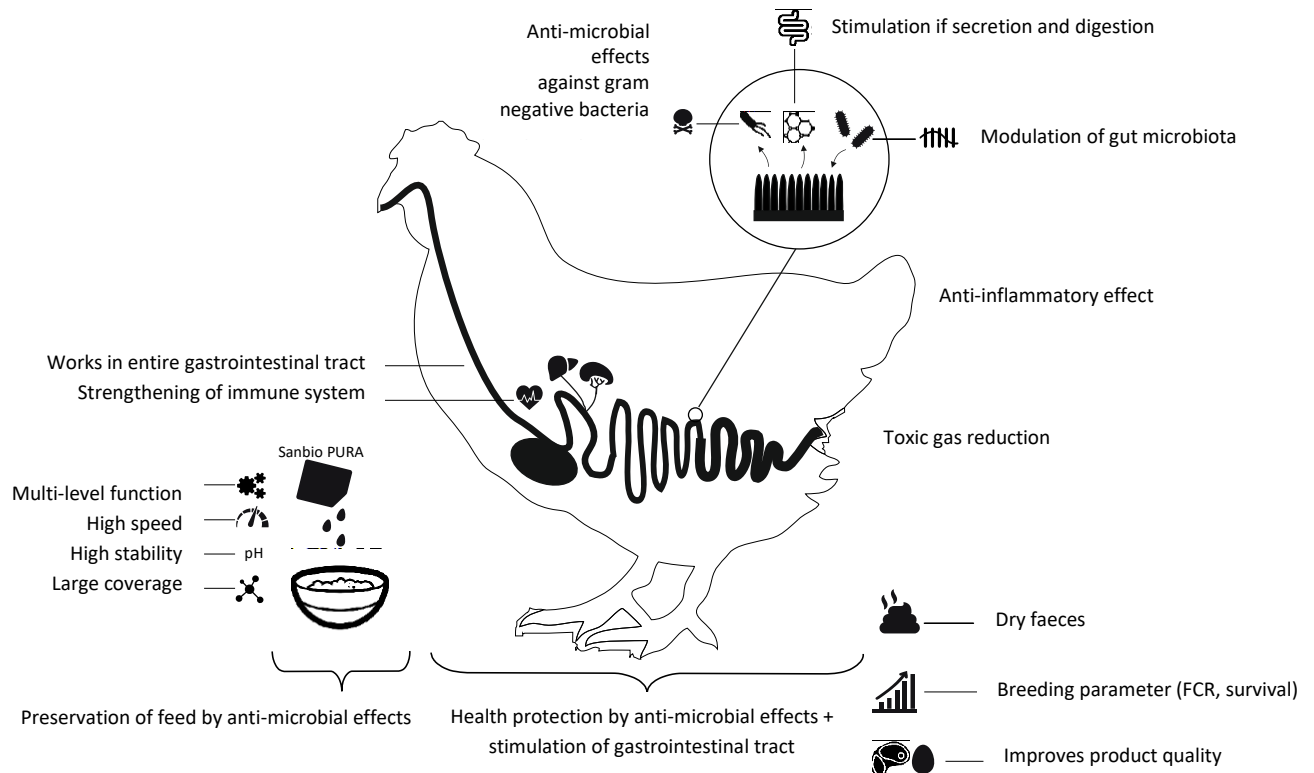

TOTAL PROTECTION. PURA acts throughout the length of intestine offering total protection.

HEALTHY GUT MICROBIOTA. PURA balances the pH value of the gastrointestinal tract and maintains the modulation of healthy bacterial flora (e.g. Lactobacilli, Bifidobacteria).

GROWTH CONTROL. The active secretion of digestive juices and enzymes as well as improved oxygen utilization in the blood lead to improved metabolism and better nutrient uptake.

STRONG AND VITAL. Citric acid stimulates liver, kidney and pancreas function, and in regular use, also has a toning, antispasmodic and analgesic effect.

FASTER. HEAVIER. BETTER. The enhanced performance is reflected in improved key indicators (weight gain, feed conversion ratio, mortality, quality) and lower costs (feed, vet).

DIRECTIONS OF USE

Application	Single rate
Mix with feed breeders, broilers, layers, ducks, geese, turkey	1 – 5 kg per 1000 kg complete feed

It may be used at any time during production, requires no withdrawal period.
 Ensure a homogeneous mixing of PURA with the feed to achieve best results.
 Regularly use is recommended, at least use for several days.
 PURA works systemically, preventively and curatively with associated natural mechanisms.

Remark: The use of anti-microbial products for inhibition of bacterial pathogens can lead to an increased level of endotoxins in the animal body due to normal biological processes. For binding and detoxification of the endotoxins we recommend to apply our complementary product **Sanbio SANA** to ensure maximal health protection.

INDICATIONS FOR USE:

- Abnormal bacterial flora
- Diarrheas and wet litter
- After antibiotica use and vaccination
- Stress
- Improvement of hatchability
- Slow feed intake
- Improvement of fertility and performance
- Prophylaxis.

STORAGE

Store cool and dry. Temperature range +5...40°C. Protect from sunlight and frost.

SAFETY

Read SDS carefully.

Keep out of reach of children and animals.

Wear protection gloves and eye protection.

Avoid breathing dust/mist/spray.

Wash with water thoroughly after handling.

AVAILABLE PACKAGES:

25kg bucket

SHELF TIME

24 months in unopened packages. Opened packages should be stored tightly closed.

COUNTRY OF ORIGIN

Federal Republic of Germany
